# HEAR FROM OUR STUDENTS

---

I attended UniSA Networking Event and Graduation, and both were great: The Networking Event provided plenty of opportunities and time to talk with employers, which was very valuable. The Graduation was a formal and well-organized ceremony, making it a memorable experience.

I enjoy the clear structure of the program, with only 12 hours of classes per week. This leaves me enough time to prepare for work, internships, or simply rest, making the experience both flexible and rewarding.

UniSA's practical approach to learning, combined with opportunities like networking events, has helped me develop critical thinking and communication skills. These experiences will be valuable in applying my knowledge and connecting with industry professionals in my future career.

# HEAR FROM OUR STUDENTS

---

I find the campus facilities and support services at UniSA excellent and very helpful for international students. The range of services, from Campus Central to learning advisers, has made it easier to adapt to studying abroad. The academic support provided has been invaluable, helping me manage my coursework and plan out my study schedule effectively.

The university offers valuable career advice, holds workshops to develop professional skills, and regularly sends newsletters on job openings and internships. These initiatives help me stay connected to industry trends and prepare for future job opportunities.
